11/29/2000

Jeffery Denton was Terminated on Monday 11/29
For improper work being done. ON RO # 224283
MR. Tiers Stated That All his grease fittings were not
lubed + felt we did not do a proper job. He made a
statement to me that not greasing the joints would
cause premature wear on the parts. Jeffery has
been cautioned on several occasions to grease All
the fittings when performing a lube job.
